	10	10	9	10	10	10	10	10	8	10	10	We received the opportunity to speak any language we wanted through the program, but I felt this option hurt more than it helped. The tests were all in English and some in spanish, but in the world if you don't speak English you may have a hard time in the work world. If those persons could not understand the test in English, these persons may have a hard time adjusting in the Workforce. Marylot gave the option of language preference instead of forcing them. It would be better off to get with former employees regarding unemployment and offer language courses to get employees off	9

												unemployment to put them back to work. Umemployment does not cover all bills, insurance, it's bad being on umemployment...the economy is expensive, umemployment does not cover.
